This is a " small " chassis typical of the 70 models, being " mixed " and capable of being used for a 1600 or 1300. This was a specific feature of the competition 1600S cars of this period. The difference between the small and large chassis can be found in the tubes at the back, a change motivated by participation in off-road rallies, a discipline not tried by #16807!
