### ***A960e Automatic Transmission***

***The A960E 6-speed automatic transmission [6 Super ECT (Electronic Controlled Transmission)] is used on the 4GR-FSE engine models (2WD). The fuel economy and driving performance have been improved by the 6-speed automatic transmission. The multi-mode automatic transmission with the shift paddle switch is used. For details, see page CH-45. 0140CH19Z A960E Automatic Transmission Specification Transmission Type A960E***

### ***A960E AUTOMATIC TRANSMISSION***

***Information about transmission A960E. The use of a computer controlled gear system has made it easier and smoother to switch back and forth between gears. To drive a vehicle with the automatic transmission A960E is almost like driving with CVT. The controller switches stage smoothly and efficiently.***

***Transmission repair manuals A960E | Rebuild instructions***

***Contrary to the 6??19 unit with the torque converter having several double-sided frictions for the slippery mode, the A960E transmission has a single friction glued to the piston, that requires monitoring of the wear-out and when having any suspicions related to lack of the torque converter lockup, therefore well-timed diagnostics and spare parts replacement procedures should be implemented.***
