With the compliments of the Elektor Editorial and Labs teams, here is a 'fresh' article presented free of charge to all Elektor e-zine subscribers. This time we have author Werner Möhrle discuss his temperature recorder based on an Arduino Uno and a DS1631 sensor, along with a Sketch that, remarkably, doesn't use any libraries!

Items about: Arduino | Elektor Magazine

Once you've wired up the Arduino to the circuit, attach it to one of the Pi's USB ports. This provides power to the Arduino, as well as a data connection between your Raspberry Pi and the Arduino board. Do not use the Arduino's barrel-jack power input - a Pi 2 or 3 can supply enough power for an Arduino board over USB.

Program an Arduino UNO with your ... - The MagPi magazine

Posts about arduino written by Ronnie. Full Circle is a free, independent, monthly PDF magazine dedicated to the Ubuntu family of Linux operating systems. Each month, it contains helpful how-to articles and reader submitted stories.

arduino | Full Circle Magazine

The real reason for an Arduino Foundation is to free Arduino from Federico Musto and ensure that this open source hardware project is responsive to the community that cares about Arduino and its ecosystem. The Arduino team and Arduino Holding need to show us that the Arduino Foundation has been formed as an independent and open organization.
