### Pickwell's Binocular Vision Anomalies: 9780750688970 ...

Binocular vision anomalies are among the most common visual disorders. They are usually associated with symptoms such as headaches, asthenopia, eye pain, blurred vision, and occasional diplopia. About 20% of patients who come to optometry clinics will have binocular vision anomalies.

### Binocular vision - Wikipedia

Conclusion. There is a lack of proper epidemiological studies about the prevalence of accommodative and nonstrabismic binocular anomalies. Studies reviewed examine consecutive or selected patients in clinical settings and schools but in any case they are randomized and representative of their populations with no data for general population.
