Amazon.com: Domestic Dog Cognition and Behavior: The ...

Dog behavior is the internally coordinated responses of individuals or groups of domestic dogs to internal and external stimuli. It has been shaped by millennia of contact with humans and their lifestyles. As a result of this physical and social evolution, dogs, more than any other species, have acquired the ability to understand and communicate with humans, and they are uniquely attuned in these fellow mammals. Behavioral scientists have uncovered a wide range of social-cognitive abilities in t
