The designer's guide to grid theory | Creative Bloq

In graphic design, a grid is a structure made up of a series of intersecting straight or curved lines used to structure content. The grid serves as an armature or framework on which a designer can organize graphic elements in a rational, easy-to-absorb manner. A grid can be used to organize graphic elements in relation to a page, in relation to other graphic elements on the page, or relation to other parts of the same graphic element or shape. The less-common printing term "reference grid." is a
