Industrial Organisation And Engineering Economics

Industrial organization is a field of economics dealing with the strategic behavior of firms, regulatory policy, antitrust policy and market competition.

Industrial Organization Definition

In economics, industrial organization is a field that builds on the theory of the firm by examining the structure of (and, therefore, the boundaries between) firms and markets. Industrial organization adds real-world complications to the perfectly competitive model, complications such as transaction costs , [1] limited information , and barriers to entry of new firms that may be associated. ...
