Into The Earth: A Wine Cave Renaissance

With a light swirl, careful not to disturb the bubbles -- a plush wave of strawberry fruit rolls through. But don ' t wait too long for that initial sip, the vivacious explosion of even more strawberries, bubbles, and texture allows a person to understand the passion that goes into the making of a sparkling wine.

The only worthwhile miracle in the New Testament—the transmutation of water into wine during the wedding at Cana—is a tribute to the persistence of Hellenism in an otherwise austere

Judaea. The same applies to the seder at Passover, which is obviously modeled on the Platonic symposium: questions are asked (especially of the young) while wine is circulated.

Earth, Wind & Fire - In the Stone (Audio)

Weather and climate have played decisive roles throughout human existence — where and how cultures developed, where they migrated and even how some died out. The most successful early civilizations were those that developed strong agrarian systems based on what crops were most compatible with the climate. If conditions changed for one reason or another, people migrated to areas with a more ...

Climate, terroir, and wine: What matters most in producing ...

Alcoholic wine during biblical times, which was much weaker than the wine of today, was often watered down for drinking. They basically only had water and wine. Like Pepsi or Coke today, wine was consumed by adults and children alike as a tasty substitute for water. Watering down wine was something they did and they drank it this way regularly.

In wine tasting, a wine is considered "clear" when there are no visible particles suspended in the liquid and, especially in the case of white wines, when there is some degree of transparency. A wine with too much suspended matter will appear cloudy and dull, even if its aroma and flavor are unaffected; wines therefore generally undergo some kind of clarification.

Clarification and stabilization of wine - Wikipedia

White Wine: Once crushed, the white grapes are transferred into a press, which is another piece of winemaking equipment that is literal to its name. All of the grapes are pressed to extract the juice and leave behind the grape skins. The pure juice is then transferred into tanks where sediment settles to the bottom of the tank.
