Download Free Word Problems In Algebra With Solution

You might wonder how to work with that "1.25 times as fast" part. If you're not sure, try doing similar computations with simpler numbers. For instance, if the faster pipe filled the pool 2 times as fast as the second pipe, then it would take one-half as long to fill the pool. If the faster pipe filled the pool 3 times as fast as the second pipe, then it would take one-third as long to fill the ...
